

Experience

PetNet

Front-end Developer

Makati City
May 2024 – Present

- Primary responsibilities include implementing services for domestic/international remittance, currency exchange, insurance processing, etc. Displaying modernization by successfully migrating legacy components into a responsive frontend built with Vue 2 and Vuetify.
- Implemented end to-end backend logic and data flows using Laravel and managed relational databases (MySQL/HeidiSQL)
- Optimized and maintained a core monolithic MVC framework, successfully integrating modern features while navigating legacy stacks (jQuery, Blade, PHP) and complex backend constraints such as stored procedures and triggers.
- Managed backend microservices (Node.js/Express) and partner API integrations (GCASH, Bayad Center, Western Union, etc.).

iRely

Junior Full Stack Developer

Makati City
June 2023 – Dec 2023

- Developing features, maintaining, and debugging the application our customer uses. Primarily working on Invoices in Accounts Receivable module.
- Uses Github, Azure DevOps, and JIRA for bug tracking, delegation, and project management
- Adapts to niche languages such as our company's proprietary language based on Ext. JS

Education

STI College Ortigas-Cainta

Bachelor's Degree in Computer Science
GPA: 1.39 - Cum Laude

Cainta
Graduation Date: 2022

Projects

Learning Management System

- Modernized a legacy thesis project into a decoupled architecture, leveraging Vue 3 and the Quasar Framework for a responsive frontend, paired with a Laravel REST API backend with basic CRUD functionalities.
- Built with a secure authentication system using JWT (JSON Web Tokens) and Pinia for global state management.
- Implemented Role-Based Access Control (RBAC) to deliver distinct workflows for Students and Teachers, including dynamic dashboard rendering and protected API routes.
- Integrated a secure file-handling pipeline integrated with Cloudinary API to manage asynchronous media and file uploads.
- Created real-time messaging system using WebSockets to facilitate instant communication between teachers and students, enhancing virtual classroom engagement.
